

Please do NOT let LPFM stations to have priority over FM translator stations such K-LOVE represented on FM 91.9, 99.3, & 89.35 in the SF bay areas.

K-LOVE broadcasts positive messages in my community which is a wonderful alternative to what we have available from the paid airwaves of commercial radio or LPFM stations.

Many of the messages/broadcasts/songs provide life changing decisions from destructive lifestyles so that it's audience can live with hope and peace.

The community desires to have the type of programming that stations like K-LOVE deliveres to it's audience. Please note how many listeners and donors that K-LOVE has as active participants.

I do hope that you consider the desires of the greater bay area in making your descions. Thank You.

Charles Rusch
